LOUISIANA DEPARTMENT OF ENVIRONMENTAL QUALITY

:FOR ALL YOUR ENVIRONMENTS

I. Definitions

LOUISIANA DEPARTMENT OF ENVIRONMENTAL QUALITY

:FOR ALL YOUR ENVIRONMENTS

I.A. Sewage Sludge -

(Includes Domestic Septage & Portable Toilet Waste)

Sewage Sludge - any solid, semisolid, or liquid residue removed during the treatment of municipal waste water or domestic sewage. *Sewage sludge* includes, but is not limited to, solids removed during primary, secondary, or advanced waste water treatment, scum, domestic septage, portable toilet pumpings, type III marine sanitation device pumpings (33 CFR Part 159), and sewage sludge products. *Sewage sludge* does not include grit or screenings, or ash generated during the incineration of sewage sludge.

Also includes *Grease Trap Waste* When Pumped or Removed from a *Food Service Establishment* and Mixed with *Sewage Sludge*

LOUISIANA DEPARTMENT OF ENVIRONMENTAL QUALITY

:FOR ALL YOUR ENVIRONMENTS

I.B. Person Who Prepares Sewage Sludge -

Person Who Prepares Sewage Sludge- the person who generates sewage sludge during the treatment of domestic sewage in a treatment works, the person who treats sewage sludge, or the person who derives a material from sewage sludge.

I.C. Pumper of Sewage Sludge

Pumper of Sewage Sludge—a person who removes sludge from a sanitary wastewater treatment facility; domestic septage from a residential septic tank, mechanical treatment plant, or dump station for recreational vehicles and watercrafts or vessels; residuals from a portable toilet; or grease from a food service facility that is mixed with sewage sludge.

I.D. Transporter of Sewage Sludge

Transporter of Sewage Sludge—a person who pumps or moves sewage sludge off-site by means of land-based vehicles, barges, ships, rails, pipelines, or other modes of transportation. For oxidation ponds/lagoons/surface impoundments, this includes the removal of the sewage sludge from the oxidation ponds/lagoons/surface impoundments to the levees surrounding the oxidation ponds/lagoons/surface impoundments.

Haulers/Transporters

LOUISIANA DEPARTMENT OF ENVIRONMENTAL QUALITY

:FOR ALL YOUR ENVIRONMENTS

II.A. Registration Period Began on July 1, 2009

Transferred the Registration of
the Vehicles of
Transporters/Haulers of
Sewage Sludge from...

...to...

LOUISIANA DEPARTMENT OF ENVIRONMENTAL QUALITY

:FOR ALL YOUR ENVIRONMENTS

II.B. Sewage Sludge Transporter/Hauler Regulations

LAC 33:IX.7301.F

LOUISIANA DEPARTMENT OF ENVIRONMENTAL QUALITY

:FOR ALL YOUR ENVIRONMENTS

II.B.1. Sewage Sludge Transporter/Hauler Registration

Registration – Registration Form obtained from the Office of Environmental Services or through the department's website.

All the information required by the form shall be provided.

The registration period - July 1 to June 30.

All registrations shall expire on June 30 of each year.

To continue the operation of transporting sewage sludge – Apply for re-registration to the Office of Environmental Services at least 60 days prior to June 30 of each year.

[*NOTE: All presently registered haulers will have to re-register (Submit registration forms to LDEQ) in April 2010.]

The fee for registration shall be an annual fee of \$100.

LOUISIANA DEPARTMENT OF ENVIRONMENTAL QUALITY

:FOR ALL YOUR ENVIRONMENTS

II.B.1. Sewage Sludge Transporter/Hauler Registration

- e. The method of payment of fees shall be in accordance with **LAC 33:IX.1309** of the Water Quality Regulations – Access → <http://www.deq.louisiana.gov/portal/Default.aspx?tabid=1674>

LOUISIANA DEPARTMENT OF ENVIRONMENTAL QUALITY

:FOR ALL YOUR ENVIRONMENTS

II.B.1. Sewage Sludge Transporter/Hauler Registration

- f. The Office of Environmental Services shall be notified prior to any modification to the information submitted for registration, including, but not limited to, the following:**
 - i. The removal and/or addition of information about the facility to which the sewage sludge is being transported.**
 - ii. The removal and/or addition of a vehicle that will be utilized for the transporting of sewage sludge.**

II.B.1. Sewage Sludge Transporter/Hauler Registration

- g. All transporters of sewage sludge and/or grease mixed with sewage sludge shall transport the sewage sludge and/or grease mixed with sewage sludge only to a facility permitted to receive sewage sludge.**
- h. All transporters of sewage sludge and/or grease mixed with sewage sludge shall maintain a daily log or record of activities containing the following information regarding the sewage sludge and/or grease mixed with sewage sludge:**
 - i. The date the transported material was obtained, pumped, or removed;**
 - ii. The origin or source of the material;**
 - iii. The volume of material removed (generated) from each site,**
 - iv. The transfer and/or disposal site; and,**
 - v. The amount of material that was transported or disposed.**

II.B.1. Sewage Sludge Transporter/Hauler Registration

- a. Registration shall be through a form obtained from the Office of Environmental Services or through the department's website. All the information required by the form shall be provided.

V. General Information: Effective July 1, 2009, the registration of all haulers of sewage sludge has been transferred from DHH to DEQ. At least 60 days prior to the 2008 expiration of your sewage sludge hauler "License" issued by the Department of Health and Hospitals, you will need to apply for registration with DEQ utilizing this form. The form is available by accessing the DEQ Sewage Sludge/Biosolids Internet Site at: <http://www.deq.louisiana.gov/portal/tabid/2296/Default.aspx>.

For information regarding technical questions, phone (225) 219-3012

LOUISIANA DEPARTMENT OF ENVIRONMENTAL QUALITY

:FOR ALL YOUR ENVIRONMENTS

II.B.2. Standards Applicable to Vehicles Used to Transport Sewage Sludge

When transporting sewage sludge, the bodies of vehicles must be covered at all times to prevent:

- 1. rain from reaching the sewage sludge;**
- 2. inhibits access by disease vectors;**
- 3. prevents the sewage sludge from falling or blowing from the vehicle; and,**
- 4. minimizes escape of odors, and does not create a nuisance.**

If transport liquefied sewage sludge - Vehicle shall be constructed and/or enclosed with an appropriate material that will completely prevent the leakage or spillage of the liquid.

II.B.2. Standards Applicable to Vehicles Used to Transport Sewage Sludge

The exterior and interior of the body of a vehicle that is transporting sewage sludge shall be washed down, at a designated washdown area to:

- 1. prevent accumulation of sewage sludge; and,**
- 2. for the prevention of odors and disease vector attraction.**

The washdown area shall be designed, constructed, and operated to prevent groundwater contamination and stormwater run-on and runoff.

All water and leachate generated at the designated washdown area shall be contained and discharged in accordance with all applicable state and federal regulations.

II.B.2. Standards for Sewage Sludge Pipelines and Containment Areas

Transfer points, pumping stations, and other facilities with a potential for spillage shall be located above grade, or in watertight compartments, and shall be in containment areas constructed to hold the maximum potential spill.

Containment areas shall consist of a base and dikes constructed of concrete, compacted clay, or other impervious materials. All joints must be sealed.

Other Standards: The administrative authority may provide appropriate standards for transporters of sewage sludge that utilize other modes of transportation.

****These regulations do not relieve the transporter from the responsibility of complying with other applicable regulations and licensing requirements, including, but not limited to, those of the Louisiana Department of Transportation and Development, and with applicable ordinances governing types, sizes, and weights of vehicles used to transport sewage sludge on roads and streets that must be traveled during the transporting of the sewage sludge and with any other applicable requirements.**

****These regulations do not relieve the transporter from the responsibility of complying with other applicable regulations and licensing requirements, including, but not limited to, those of the Louisiana Department of Transportation and Development, and with applicable ordinances governing types, sizes, and weights of vehicles used to transport sewage sludge on roads and streets that must be traveled during the transporting of the sewage sludge and with any other applicable requirements.**

III. Requirements for the “Receiving Facilities”

LOUISIANA DEPARTMENT OF ENVIRONMENTAL QUALITY

:FOR ALL YOUR ENVIRONMENTS

**III.A. RECEIPT
OF
HAULED SEWAGE SLUDGE
INTO
A**

Domestic Wastewater or Sewage Sludge Treatment Facility

LOUISIANA DEPARTMENT OF ENVIRONMENTAL QUALITY

:FOR ALL YOUR ENVIRONMENTS

II.A.1. LPDES Permit

A general prohibition for the receipt of hauled domestic septage will be placed into all LPDES permits unless the applicant has properly notified the Department. This statement will be in Part II (Other Conditions) and shall read: “The acceptance of hauled domestic septage as defined at LAC 33:IX.2313 is prohibited unless otherwise authorized by this Department.”

III.A.1. LPDES Permit

a. If already have an LPDES permit – Submit a written notification to DEQ indicating that you are taking in or plan to take in material from haulers/pumpers of sewage sludge.

b. Upon permit renewal, indicate that you are accepting material from haulers/pumpers in the permit application.

c. If you do not have an LPDES permit – Indicate that you are accepting material from haulers/pumpers in the permit application.

 To: Prospective Applicants for a Sanitary Wastewater Permit

Attached is a Sanitary Wastewater Discharge Permit Application, WPS-S. To be considered complete, every item on the form must be addressed and the last page signed by an authorized company agent. If an item does not apply, please enter "N/A" (or not applicable) to show that the question was considered.

Two copies (one original and one copy) of your completed application, each with a marked U.S.G.S. Quadrangle map or equivalent attached, should be submitted to:

Mailing Address: Department of Environmental Quality Office of Environmental Services Post Office Box 4313 Baton Rouge, LA 70821-4313 Attention: Water Permits Division	Physical Address: (if hand delivered) Department of Environmental Quality Office of Environmental Services 602 N Fifth Street Baton Rouge, LA 70821 Attention: Water Permits Division
---	---

Please be advised that completion of this application may not fulfill all state, federal, or local requirements for facilities of this size and type.

According to L. R. S. 48:385, any discharge to a state highway ditch, cross ditch, or right-of-way shall require approval from:

Louisiana DOTD Office of Highways Post Office Box 94246 Baton Rouge, LA 70894-2246 (225) 379-1527	AND	Louisiana DHH Office of Public Health Center for Environmental Health Services PO Box 4489 Baton Rouge, LA 70821-4489 (225) 342-7550
---	-----	---

In addition, the plans and specifications for sanitary treatment plants must be approved by the Louisiana DHH, Office of Public Health at the address above.

A copy of the LPDES regulations may be obtained from the Department's website at <http://www.louisiana.gov/portals/1614/default.aspx> or by contacting the Office of Environmental Assessment, Regulations Development Section, Post Office Box 4314, Baton Rouge, Louisiana 70821-4314, phone (225) 219-3550.

For questions regarding this application please contact the Water Permits Division at (225) 219-3181. For help regarding completion of this application please contact DEQ, Small Business Assistance at 1-800-259-2500.

F. Sewage Sludge and Biosolids.

1. Identify the sewage sludge or biosolids use or disposal practice utilized by the facility (i.e. landfill, land application, or incineration).

2. Please give the facility's Sewage Sludge/Biosolids Permit Number _____

3. As per LAC 33:IX.7301.D, if you do not have a sewage sludge/biosolids use or disposal permit, you must apply for one.

- G. If treatment includes some form of "Land Application" (ex. overland flow, rapid infiltration, spray irrigation) indicate the number of acres of the land application area and give a description of the land use (ex. pasture, cattle/sheep/goat/horse grazing, etc.)

Acres: _____

Land Use: _____

- H. If the treatment includes the use of a "Natural Wetland System", please contact DEQ customer Assistance at telephone (888) 763-5424 for additional information prior to submittal of this application.

- I. For Publicly Owned Treatment Works (POTW's):

1. Is the facility operating under an approved pretreatment program? ☐ Yes ☐ No

2. If so, provide the date of approval: _____

3. If not, is the facility required to develop a pretreatment program? ☐ Yes ☐ No

City of Ruston
P.O. Box 2069
Ruston, Louisiana 71271

Attention: Honorable Dan Hollingsworth, Mayor

Louisiana Sewage Sludge and Biosolids Use or Disposal permit for a Publicly Owned Treatment Works (POTW) to prepare sewage sludge into a Class B Biosolids and Land Apply the Class B Biosolids for Beneficial Use.

Dear Mayor Hollingsworth:

This Office did not receive comments from the general public in response to the public notice published in *The Ruston Daily Leader* on February 4, 2009. However, the city of Ruston did send one comment regarding the wording at B.2.a of Part II of the permit. The city of Ruston's comment and the Office of Environmental Services' response are as follows:

Comment

"Under Part II, Specific Conditions, subsection B.2 Operational Standards, paragraph a. states in part "The facility must include a receiving area, preparing areas, and truck wash area that are located on surfaces capable of preventing groundwater contamination..."

Please be advised that the City of Ruston does not receive sludge materials at the Beneficial Use Facility by means other than that which is pumped directly from the City of Ruston Wastewater Treatment Facility, and we do not anticipate doing so in the future. Therefore, we feel as though this section does not apply. However, if the wording were changed to add the following statement, presented in bold writing, then this section would apply as follows: "If any sludge materials are to be received by any means other than that which is pumped directly from the City of Ruston Wastewater Treatment Facility, the facility must include a receiving area, preparing areas, and truck wash area that are located on surfaces capable of preventing groundwater contamination..."

January 12, 2010

LAJ650000

GENERAL PERMIT NUMBER: LAJ650000
AI 166433
PER20090001

TO: ALL INTERESTED PARTIES

Subject: Sewage Sludge and Biosolids Use or Disposal General Permit LAJ650000

The Department of Environmental Quality (DEQ) has finalized the Sewage Sludge and Biosolids Use or Disposal General Permit LAJ650000.

This Office has published a public notice announcing the proposal to issue this general permit in THE ADVOCATE of Baton Rouge, and one time each in the following local papers throughout the state: THE TIMES of Shreveport, THE AMERICAN PRESS of Lake Charles, THE TIMES PICAYUNE of New Orleans, THE NEWS-STAR of Monroe, THE TOWN TALK of Alexandria, THE ADVERTISER of Lafayette, THE COURIER of Houma, and THE TIMES of Shreveport on October 21, 2009, published on the LDEQ Permits Public Web Page, and mailed to all persons on the Office of Environmental Services Public Notice Mailing List and Electronic Mailing List on October 20, 2009. Subsequent to publication of the public notice in these newspapers a 30-day comment period began. All interested parties were invited to submit written comments to this Office within the 30-day comment period. Written comments were received during the comment period. These comments were reviewed and responses provided.

Pursuant to the Clean Water Act (33 U.S.C. 1251 *et seq.*), and the Louisiana Environmental Quality Act (La. R.S. 30:2001, *et seq.*), the attached Sewage Sludge and Biosolids Use or Disposal General Permit has been issued. Provisions of this permit may be appealed in writing pursuant to La. R.S. 2024 (A) within 30 days of receipt of this permit. A request for a hearing must be sent to the following:

Louisiana Department of Environmental Quality
Office of the Secretary
Attention: Hearings Clerk, Legal Affairs Division
Post Office Box 82282
Baton Rouge, Louisiana 70884-2282

Should you have any questions concerning any part of the general permit, public notice requirements or procedures, please contact Mr. Eura DeHart, Water Permits Division, at the address below or by telephone at (225) 219-3092.

Publicly Owned Treatment Works that accept hauled sewage sludge from outside sources shall develop a Facility Operations and Maintenance Manual. A copy of the manual must be forwarded with this Notice of Intent.

1. The Facility Operations and Maintenance Manual shall be updated as needed and kept on-site and readily available to employees and, if requested, to the administrative authority or his/her duly authorized representative.
2. The Facility Operations and Maintenance Manual must describe, in specific detail, how the sewage sludge will be managed during all phases of the preparation and subsequent disposal. At a minimum, the manual shall address the following:

I. Facility Information

Facility Name: _____
Mailing Address: _____
City: _____
State: _____ Zip Code: _____
Phone: _____

Physical location: _____
City: _____ Zip Code: _____
Parish: _____
DEQ AI #: _____ LPDES Permit #: _____

II. Facility to which sewage sludge will be transported

Facility Name: _____
Physical Location: _____
City: _____ Parish: _____
DEQ Sewage Sludge Permit #: _____
DEQ AI #: _____

III. Attachments

Publicly Owned Treatment Works (POTWs) that accept hauled sewage sludge from outside sources are required to submit the information required in Appendix A.

IV. Certification Statement

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gathered and evaluated the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of a fine and imprisonment for knowing violations.

I certify that the conditions of General Permit LAJ660000 are applicable to the facility and that this facility meets the all eligibility requirements of Part I of LAJ660000. I agree to comply with all terms and conditions of the authorization under the General Permit LAJ660000.

III.B Record Keeping

1. The permittee shall develop and implement a sewage sludge hauler manifest or tracking system.
2. The manifest system shall be the primary mechanism by which the treatment facility will identify the quantity and quality of hauled sewage sludge being discharged into the Domestic Wastewater or Sewage Sludge Treatment Facility.
3. The manifest system also provides a means to ensure only authorized hauled sewage sludges are being introduced into the Domestic Wastewater or Sewage Sludge Treatment Facility.
4. The manifest system shall require the waste hauler to complete an entry for each load picked up.

III.B Record Keeping

5. The Manifest Form shall include, at a minimum, the following information:

- a. Name, address, and phone number of the hauler;**
- b. Hauler Vehicle License Number;**
- c. LDEQ Hauler Registration Number;**
- d. Driver name;**
- e. Generator Information (where the sewage sludge was picked up) including:**
 - i. Name of Generator (business name) if not an individual residence.**
 - ii. Address of Generator.**
 - iii. Date the wastes was pumped.**
 - iv. Gallons pumped by the hauler.**

LOUISIANA DEPARTMENT OF ENVIRONMENTAL QUALITY

:FOR ALL YOUR ENVIRONMENTS

III.B Record Keeping

- f. A statement to be signed by the hauler certifying:
- i. The manifest was prepared by him or under his direct supervision;
 - ii. The information contained in the manifest is to the best of his knowledge complete and true;
 - iii. The vehicle load contains only those wastes authorized by the treatment facility;
 - iv. The vehicle load does not contain hazardous wastes; and,
 - v. That the hauler is aware of penalties for submitting false information.

III.B.5 & .6 Record Keeping

- g. The certification shall be followed by the Printed Name, Signature and Date of Signature of the hauler.**
 - h. The treatment facility shall supply blank manifest forms to each hauler.**
 - i. A copy of the completed, signed and dated manifest form shall be supplied to the hauler upon discharge of the wastes into the treatment system. Duplicate forms are permissible.**
- 6. Manifests shall be maintained by the treatment facility and shall be made available upon request by duly authorized regional inspectors and/or Department Headquarters representatives.**

Section IV - Certification

I certify under penalty of law that this manifest was prepared by me or under my direct supervision. The information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for providing false information. I further certify that the wastes covered by this manifest are not hazardous as defined at 40 CFR 149.2. I further certify that all discharges made to the treatment works treating domestic sewage are being made in accordance with the requirements specified by the treatment works and the LPDES permit issued to the treatment works.

III.C. Reporting

Reporting to the Department – The LPDES Permit will contain the following:

An updated copy of the authorized vehicle list and copies of the manifests (or a report summarizing the required manifest information) shall be submitted annually to the Department no later than February 19th of each calendar year. (The document should be submitted even if no sewage sludge is received.) This information will be utilized to provide QA/QC in the annual licensing of septage haulers. This information shall be submitted to:

**Department of Environmental Quality
Office of Environmental Compliance
Enforcement Division
Post Office Box 4312
Baton Rouge, Louisiana 70821-4312
Attention: Permit Compliance Unit**

III.D. Allowable amount of hauled sewage sludge to be received at a Domestic Wastewater or Sewage Sludge Treatment Facility

- 1. Any truck disposing of hauled sewage sludge into a Domestic Wastewater or Sewage Sludge Treatment Facility must be properly licensed by the State of Louisiana to haul sewage sludge. The receipt of hauled sewage sludge from an unauthorized/unlicensed hauler shall constitute a violation of the Domestic Wastewater or Sewage Sludge Treatment Facility's LPDES Permit .**
- 2. The introduction of any trucked or hauled pollutants is prohibited except at points designated by the Domestic Wastewater or Sewage Sludge Treatment Facility.**

III.D. Allowable amount of hauled sewage sludge to be received at a Domestic Wastewater or Sewage Sludge Treatment Facility

3. Oxidation Ponds

- a. Treatment works utilizing oxidation ponds for treatment of domestic wastewater that receive hauled sewage sludge may not accept greater than 3% of the effluent flow in hauled sewage sludge daily, unless pretreatment of the hauled sewage sludge is provided.**
- b. Treatment works utilizing oxidation ponds for treatment of domestic wastewater that do receive hauled sewage sludge will receive 10/15 or more stringent limits¹. Coverage either under the Class IV Sanitary General permit or given an individual permit.**

¹ Oxidation ponds that discharge directly into the Mississippi, Red or Atchafalaya Rivers may retain secondary limitations.

III.D. Allowable amount of hauled sewage sludge to be received at a Domestic Wastewater or Sewage Sludge Treatment Facility

4. Other Treatment Technologies

Treatment works utilizing treatment technology other than oxidation ponds for treatment of domestic wastewater that receive hauled sewage sludge may not accept greater than 3% of the effluent flow in hauled sewage sludge daily, unless pretreatment of the hauled sewage sludge is provided.

5. Pretreatment Requirements

Pretreatment of hauled sewage sludge may be accomplished by equalization, direct discharge into the digester, or other accepted technology.

LANDFILL

LOUISIANA DEPARTMENT OF ENVIRONMENTAL QUALITY

:FOR ALL YOUR ENVIRONMENTS

IV.A. Record Keeping

Sewage Sludge Manifest/Tracking System

The permittee (Landfill) shall develop and implement a sludge hauler manifest or tracking system.

The manifest system shall be the primary system by which the Landfill will identify the quantity and quality of sludge being discharged into the treatment system.

The manifest system also serves as a means to ensure only authorized sewage sludges are being introduced into the treatment system.

The manifest system shall require the waste hauler to complete an entry for each load picked up or delivered to the treatment system.

SAME AS DOMESTIC WASTEWATER OR SEWAGE SLUDGE TREATMENT FACILITY RECORD KEEPING REQUIREMENT

LOUISIANA DEPARTMENT OF ENVIRONMENTAL QUALITY

:FOR ALL YOUR ENVIRONMENTS

IV.A. Record Keeping

The Manifest Form shall include, at a minimum, the following information:

Name, address, and phone number of the Generator

Hauler Vehicle License Number

LDEQ Hauler Registration Number

Driver name;

General location (where the sewage sludge was picked up) including:

Name of Generator (business name) if not an individual residence.

Address of Generator.

Date the wastes were pumped.

Gallons pumped by the hauler.

SAME AS DOMESTIC WASTEWATER OR SEWAGE SLUDGE TREATMENT FACILITY RECORD KEEPING REQUIREMENT

LOUISIANA DEPARTMENT OF ENVIRONMENTAL QUALITY

:FOR ALL YOUR ENVIRONMENTS

IV.A. Record Keeping

A statement to be signed by the hauler certifies:

The manifest was prepared by him/her/it under his/her/its direct supervision;

The information contained on the manifest is to the best of his/her/its knowledge complete and correct;

The vehicle contains only those wastes authorized by the receiving facility;

The vehicle load does not contain hazardous wastes; and,

That the hauler is aware of penalties for submitting false information.

IV.A. Record Keeping

The certification shall be followed by the Printed Name, Signature and Date of Signature of the hauler.

The Landfill shall keep manifest forms to each hauler.

A copy of the completed, signed and dated manifest form shall be supplied to the hauler upon discharge of the wastes into the treatment system. Other forms are permissible.

The records shall be maintained by the Landfill and shall be made available upon request by duly authorized regional inspectors and/or Department Headquarters representatives.

LOUISIANA DEPARTMENT OF ENVIRONMENTAL QUALITY

Enviroschool communities continues in February 2009
DEQ Communications - 4 days ago
Enviroschool is a training session presented by the Department of Environmental Quality that helps the public better understand the agency and how it operates. In February, the topic for Baton Rouge, Shreveport, Lake Charles and New Orleans will be Water Permits 101: Understanding the Process. The session will introduce the water program's mission, major regulations that govern it, and types and examples of water permits. For Monroe and Alexandria, the topic will be Environmental Regulations 101: A Broad Overview. This session will talk about federal and state environmental regulations and what they are designed to do.

Biosolids - Sewage Sludge

[The Sewage Sludge and Biosolids Use or Disposal Regulations](#)

[LAC 33 IX Subpart 3 Chapter 73 - Standards for the Use or Disposal of Sewage Sludge and Biosolids](#)

PLEASE NOTE: The *Sewage Sludge and Biosolids Use or Disposal* regulations, application for permit and reporting forms apply to sewage sludge pumped or removed (wasted) from a sanitary wastewater treatment facility, domestic septage, portable toilet waste (all collectively referred to in the regulations as "Sewage Sludge") and grease that was pumped or removed from a food service facility and mixed with sewage sludge.

[Sewage Sludge & Biosolids Use or Disposal Permit Applications Due](#)

All Major Sanitary Wastewater Treatment Facilities (POTW and Privately-owned) should have received a letter from the Water Permits Division informing the owners/operators that, as per LAC 33:IX.7301.D.1.b.iv, a completed Sewage Sludge & Biosolids Use or Disposal Permit Application must be submitted to LDEQ by June 1, 2009.

If your facility is classified as a Major Sanitary Wastewater Treatment Facility and has not received the letter, you still need to submit a completed Sewage Sludge & Biosolids Use or Disposal Permit Application to LDEQ.

For more information, contact Mr. J. Kilren Vidrine at (225) 219-3012.

[Registration of Vehicles that are Utilized to Pump/Haul Sewage Sludge](#)

During the 2008 Regular Session of the Louisiana Legislature, SB 326 was passed by the Legislature, signed by the Governor, and was enacted into State Law as Act 56. Act 56 becomes effective on [July 1, 2009](#) and provides LDEQ with the authority to license sewage sludge haulers.

Therefore, for the 2009 licensing/registration of the sewage sludge haulers, the pumpers/haulers of sewage sludge will need to completely fill out and submit a "Sewage Sludge Hauler" Notification Form to LDEQ.

Sewage Sludge Hauler Notification Form (revised 5/8/2009)

Approved Sewage Sludge Haulers as of January 12, 2010
